M. D. Success Laid to Ads

Telling the story of quality M. D. in the greatest campaign ever carried out by the Pacific Coast Paper Mills of Bellingham, Wash., 70 newspapers of quality plus fair profit for the dealers, and forceful, consistent newspaper advertising, build the confidence that means big business for the trade. Now the promotion that won for M. D. Tissue will be used to merchandise the new M. D. Sanitary Napkins throughout the territory. The same high quality, perfected after years of experimentation; a fair profit policy for dealers; and the same year 'round newspaper advertising are making these distinctively new Sanitary Napkins another success story for M. D.

Coupled with the enlarged newspaper campaign, M. D. dealer-helps such as wire-hangers, price cards—and a brand new floor display to hold both napkins and tissue for easy pick-up—will go a long way toward making the M. D. quality products "sell themselves." Three simple rules have been the happy impetus for building M. D. sales success: (1) give the consumer a fine quality product; (2) give the dealer a fair profit; (3) let the public know how fine the product is by consistent newspaper advertising.

Monkeys and chimpanzees shun meat but relish bananas, oranges, bread, apples and onions.

THANKS!

To The Citizenry
of the
8th District

I deeply appreciate the support given me at the polls and will continue to endeavor to serve all of the people of the district in Congress.

MENLO PARK NEWS NOTES

MENLO PARK—Mr. and Mrs. Chester Seaman of Shasta county visited Mrs. Seaman's sister, Mrs. Charles Weeden Jr., this week. They will visit Santa Rosa for a few days and return to Menlo Park to visit with Mrs. Weeden before returning to their home in Shasta county.

Mr. and Mrs. Donald McKillop are the proud parents of a baby girl, born Saturday, Aug. 24.

Isabelle Weeden Linquist, 26th District American Legion chairman of hospital entertainment, presented the following program at Palo Alto Veterans' Hospital on Friday, Aug. 16:

Mme. Camille Brugiere of San Francisco with a cast of 20 in song, dance and recitation numbers: (1) Opening, two tap dances; (2) three tap dances; (3) "Nobody's Darling;" (4) French ballet; (5) "Arms Around Me;" (6) Dainty Steppers; (7) Zingarellas; (8) Tap for Three; (9) humorous recitation; (10) Spanish tap; (11) Noel; (12) Intermezzo; (13) "Bobbie;" (14) Carissima.

Miss Beatrice Bridges, coloratura soprano, sang three songs, "A Heart That's Free," "Les Filles de Cadix," and "Indian Love Call."

Grand finale, Indian songs and dances featuring Miriam Levy, Phyllis Garden, Ida Fraidenberg, Jean Bellas, Bobby Pickering, Kenneth Bellas, Buster Bellas, Art Fraidenberg, Betty Brainard, Janet Erickson, George Bryan, Patricia McGahey, Minnie Bryan, Jay Castro, Rose Levey, Carmen Scambadi, Jimmy Robins, Mildred Ostrow, Noel Naughton, Marguerite Chapman.

Phil Blanchard, first vice commander of the 26th District, was present and spoke about the recent American Legion convention held at San Diego earlier in the month.

Notwithstanding the little interest taken in the recent campaign, yet over 65 per cent of the voters came to the polls last Tuesday. This is encouraging, for it shows the people have interest in their government and will take time to register their opinions.

The Republicans of Menlo Park are preparing to organize a club next week. The primary election being over, the local Republicans will concentrate on the presidential campaign. Over 200 have already signed the roll.

A large barn valued at \$10,000 and 150 tons of hay were destroyed by fire on the Timothy Hopkins estate Tuesday evening. The Menlo Park fire department was able to save adjoining buildings in which hay was stored. Spontaneous combustion was

said to be the cause of the blaze, which drew people from all parts of the Peninsula. Middlefield Rd. was packed with automobiles, stopping the regular traffic for hours. Not in years has such a large crowd attended a fire. The ancient barn with the dry hay sent flames hundreds of feet in the sky, lighting the countryside for miles around. Hundreds witnessed the conflagration and saw the splendid effort of the firemen in stopping the spreading of the flames to nearby structures. The barn was erected by Timothy Hopkins 30 years ago. It was insured, as were the contents. Mr. J. Boicell of Redwood City, who farms the estate, had the crop of hay stored in the vacant barns on the place. The loss will be negligible.

Mrs. Thomas Harrington has taken a cottage at Carmel, where she is entertaining friends from the Peninsula and Oakland.

Miss Carmel O'Keefe has gone to Brockway, Lake Tahoe, for two weeks, to be the guest of friends. The Felix McGinness family are close by and will close their estate there in a few days to occupy their Menlo Park home.

The dove season opens tomorrow for a period of a month and a half. The bag limit is 12 doves a day, or 30 per week. Hunters are looking forward to a good season, as the birds are plentiful on the foothills and lowlands. But the real mecca will be the wheat fields of Gilroy and surrounding country. Here hunters find abundant sport and only a short distance from the Peninsula.

Lengthy Illness Fatal To Phillip C. Kirk Jr.

A long illness ended in death on Tuesday in St. Joseph's Hospital, San Francisco, for Phillip Charles Kirk Jr., 20, son of Mr. and Mrs. P. C. Kirk of 19 Woodrow St., Redwood City.

Survivors of the young man, in addition to his parents, are three sisters, Bernyce L. and Evelyn T. Kirk of Redwood City and Mrs. Phyllis Warfield of Berkeley, and two brothers, Daryl G. and Lloyd S. Kirk, both of Redwood City. The father is employed by the Southern Pacific Co. The family came here 3½ years ago from San Francisco.

New 40 & 8 Officers Installed at Belmont

BELMONT—Harry Welch, outgoing correspondent for the 40 & 8 Society, branch of the American Legion was host Tuesday night at installation of officers which was held at the Community Hall in Belmont.

The new officers were installed by the guest of honor and Grand Chief de Gare James K. Taylor of Alameda.

Chef de Gare Frank Gomez of San Mateo Post; Chef de Train A. G. Jacobsen of Daly City

Willkie's Elwood Car Used General Tires

Republican presidential candidate Wendell Willkie rode to his recent notification ceremonies at Elwood, Ind., with his friend Bill O'Brien at the wheel of the car pictured above. Mr. O'Brien, Mercury-Lincoln Zephyr dealer in Gary, Ind., had the car in which Mr. Willkie was to ride, changed over to General Dual 8 tires, replacing the original equipment tires. According to Roy Bissell of Bissell Tire and Battery Service, Broadway and Jefferson Ave., a steadily increasing number of Redwood City motorists are having their cars changed over to general tires before taking delivery. This is a nation-wide practice by thousands of motorists who want the extra safety and quality of General Tires on their new cars at the start.

Shed Blazes Provide Mystery

Answering an alarm from the Joe Ojeda home at the rear of 833 Clinton Street Wednesday morning, Redwood City firemen quickly quenched flames which were charring a shed close to the house, and then discovered three other small spot blazes in another shed nearby.

Origin of the blazes was not known. Members of the Ojeda family were not at home. Children playing in the street nearby first noticed smoke and called their parents, who turned in the alarm.

After extinguishing the fire which ruined the small shed and threatened the two-story apartment dwelling a few feet away, firemen investigated smoke issuing from a long shed about 15 feet from the ruined structure. They learned that fire had eaten through a partition in the building, and paper or rubbish in three different spots in one room was smoldering. How the blazes were connected, if they were, was not known. Firemen immediately began an investigation to learn how the fires started. Damage was negligible. Neighbors had used a garden hose to keep the shed fire under control until firemen arrived.

Germany and Russia have occupied all or part of 13 nations since last September.

Radio Star Gives Funds

Memory of William C. Ralston, one of the Peninsula's most prominent residents who died in 1875 after a spectacular financial career, is to be preserved by a \$10,000 monument on the northern edge of Marina Park in San Francisco, according to the San Francisco Park Commission. The monument, to be executed by Sculptor Haig Patigian, has been given to the city by Maj. Edward Bowes, familiar radio figure and a native of San Francisco.

Ralston, who drowned at the foot of Polk St. in 1875 while taking a swim, gave his name to the principal thoroughfare of Belmont, Ralston Ave. In 1865 he bought a villa there, from an Italian count, Leonetto Cipriani, remodeled it and made it one of the showplaces of the Peninsula.

Today the home is occupied by the Sisters of Notre Dame. Ralston, in partnership with D. O. Mills, founded the Bank of California in 1864. He was engaged in numerous other financial enterprises in San Francisco. The adoption of Belmont's name has been attributed to him. The large bronze and stone memorial is now under consideration by the San Francisco Art

Fiesta Bumper Strips Distributed in County

Bumper strips for use on both private and commercial cars have been distributed to various agencies throughout the county, as one of the traditional means of advertising the San Mateo County Fiesta Sept. 19-22, it was announced today by Bruce Gibson, president of the county fair association.

"All county residents can give the fiesta valuable support by carrying the colorful strips on their cars," Gibson said. He listed various agencies throughout the county which have a supply of the strips available. Included were:

Sicily, Italian possession nearest to Malta, is 60 miles distant. Commission, and will take about eight months to construct when it is finally approved, Patigian said.

'Fluid Drive' In New Dodge

Recent rumors and new-model guesses associating the 1941 Dodge with "a revolutionary new driving feature," now crystallize into the definite information that the newest models of this popular automobile will feature the "Fluid Drive."

The "Fluid Drive," as employed by Dodge and described by Forest H. Akers, vice president and director of sales—"has been in development for the past eight years; it is without question the most vital improvement in motor car operation since the introduction of hydraulic four-wheel brakes."

"Exceedingly simple as the new 'Fluid Drive' is mechanically, it accomplishes a surprising number of improvements in driving results," says Sales Chief Akers. "The flexibility of this new fluid-power coupling is such that it reduces gear changing to points where the driver, when he wishes, may do entirely without shifting. While the cars, in the Dodge installation, remain equipped with a transmission giving three forward speeds, the 'Fluid Drive' provides, in addition, an almost infinite variety of in-between speeds which go into action automatically and therefore, call for no judgment or attention on the part of the driver."

"The 'Fluid Drive' enables even the inexperienced driver to perform, with perfect safety, such feats as ascending a hill in 'high' at speeds as slow as one or two miles an hour, stopping on the hill, then starting again—without gear shifting, without in the least straining the engine, and without danger of stalling it."

Murder-Mystery Drama To Be Given

An event of great interest to local theatergoers is the coming engagement of the English star, Flora Robson, in the murder-mystery drama, success, "Ladies in Retirement," which comes to the Curran Theater, San Francisco, for two weeks beginning next Monday.

"Ladies in Retirement" comes here after its long engagement at Henry Miller's Theater in New York. Broadway had been waiting for a really satisfying murder-thriller for some seasons when Gilbert Miller produced "Ladies in Retirement." This spine-chiller by two prominent English dramatists, Edward Percy and Reginald Denham, filled the bill and New York theatergoers have been enjoying a season of hair-raising thrills.

Flora Robson, young English character actress, stars in the colorful role of Ellen Creed who, possessed by a seeming mother-complex inhibition toward her two slightly demented sisters, murders her benefactress so that she may protect these two helpless dependents from want. The supporting cast has been described by the critics as flawless. Estelle Winwood, Isobel Elsom, Jessamine Newcombe and Florence Edney, in the cast, have all won laurels in the American theater, while Patrick O'Moore and Evelyn Ankers, newcomers to Broadway, contributed strongly to a perfect performance.

Mrs. Porter Gives Luncheon

MENLO PARK—Peninsula and San Francisco friends were invited by Mrs. Miriam Porter to a buffet luncheon and garden party at which she entertained a few days ago at her home on Cotton Ave. Assisting the hostess were her sisters, Mrs. Clarence Zimmer of Berkeley, Mrs. Ernest Perkins of Menlo Park, Jackeline Traverso of San Francisco and Patricia Porter.

Before-luncheon cocktails were

served from a bar erected under the oak trees in the garden, and the luncheon guests were seated at tables covered with brightly-colored Spanish cloths and set with colorful Mexican pottery.

Among the friends who enjoyed Mrs. Porter's hospitality were Mrs. Milton Walkup of San Mateo, Mrs. John Chamberlin and Mrs. Lawrence Gary of Atherton, Mrs. Paul Tappendorff of Palo Alto, Mrs. T. F. Delury, Mrs.

Bowens Will Spend Few Days at Monterey

Mr. and Mrs. Kenneth L. Bowen of Hudson St. and their two young daughters, Kay and Beatrice, left Wednesday afternoon to spend the remainder of the week and the holiday weekend at Monterey.

Doc Roach, Mrs. Stanley Hess and Mrs. John Traverso, all of San Francisco, and Mrs. J. W. Spencer of Los Angeles.

Gaddin' Gals Club Elects Officers

Officers were elected Wednesday at the second meeting held by the newly-organized Gaddin' Gals Club at the home of Mrs. Stephen Nogleberg of Whipple Rd. Mrs. John Torrey will head the group as president. Mrs. Earl Mattson is vice president and Mrs. Nino Maciocco, secretary-treasurer.

The entertainment committee appointed yesterday includes Mrs. Harry Jones, Mrs. Nogleberg

and Mrs. Alfred Sturgeon. Mrs. Nogleberg served luncheon after which the afternoon was spent playing bridge and sewing.

The next meeting will be held at the home of Mrs. Torrey in San Carlos.

Miss Dulinda Souza has returned to her home in Pescadero after spending several weeks in San Mateo.

"It's what we planned to do this fall—NOW we save 10%!"

I figured it out this way. Present low prices of Gas Heating Equipment are almost certain to go up in times like these. Then I SAVE 10% through buying now (dollars saved are dollars earned). I can afford to buy because no monthly payments will be due until after October 1st. I know a buy when I see one and that is why my home is going to have modern gas heating equipment installed right away. P. S. I like the way the new furnaces with blower-fan and filter operate. They deliver lots of heat in a hurry.

when you buy tires! Be on the lookout for "giveaway" offers where you pay "in-f-l-a-t-e-d" list prices for one or more tires, in order to get another at a "special" price. Watch for a lowering of quality and price, without a change in brand name. Don't be fooled!

MONTGOMERY WARD

Rock Hurler Through Window of Bus

Another case of violence in the current strike of the Brotherhood of Railway Trainmen against the Pacific Greyhound Co. was reported to San Mateo police Saturday night. Officers said that a rock crashed through a northbound bus' window as it was being driven along El Camino Real opposite the San Mateo City Park. A man was seen running through the park immediately afterwards, but police were unable to find him when they were summoned.

Meanwhile condition of John Iverson, San Francisco, burned when creosote splattered him as a bottle of the liquid was thrown into a bus at San Carlos Friday night, continued under treatment at Mills Memorial Hospital, where it was said doctors believed his sight might be saved.

PUBLIC NOTICE

Kincaid & Fitzpatrick, Attys.
CITATION
No. 31756—Dept. No. 2

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Adoption of CAROLYN CAMILLA CARVELL, a Minor.

THE PEOPLE OF THE STATE OF CALIFORNIA:

GREETING:

You are hereby cited to be and appear in the Superior Court of the State of California, in and for the County of San Mateo, at the Court-room of Department No. 2 thereof, at the Court-house in the City of Redwood City, County of San Mateo, State of California, on Monday, the 16th day of December, 1940, at the hour of 10:00 o'clock a.m. of that day, then and there to show cause, if any you have, why the petition of Paul R. Sipe and Ruby Sipe on file in the above entitled Court and matter for the adoption by said Paul R. Sipe of the above named Carolyn Camilla Carvell should not be granted by this Court, and for failure to attend as hereinbefore required you will be adjudged guilty of contempt of Court.

Given under my hand and seal of the Superior Court of the State of California, in and for the County of San Mateo this 15th day of August, 1940.

W. H. AUGUSTUS, Clerk.
By ALMA PAGANINI, Deputy Clerk.

Cape Cod Architecture in Inexpensive Home

Rarely have the quaintness and charm of Cape Cod architecture been so harmoniously combined in a small home as in this "House of the Month." Truly reflecting the pleasing simplicity of the American Colonial tradition, yet meeting every requirement for modern, comfortable living, this house was designed by Randolph Evans, architect for the Monthly Small House Club, who has had wide experience in the creation of homes which, in addition to appealing to people of discriminating taste, are at the same time within the reach of families of moderate income.

The sizeable living room, center of home life and hospitality, is assured of plenty of light and air by triple windows at the front and wide glass doors opening onto a large rear porch. A fireplace adds to the general note of cheerfulness, and there is ample wall space for the advantageous placing of furniture and bookshelves. As shown in the plan, a dinette, with pleasant

Cubic Feet Above Foundation 15,000

window outlook, is provided at one end of the kitchen, but more formal meals may be conveniently served in the living room.

Healthful cross-ventilation and lot of daytime light are assured in the two bedrooms by well placed window openings. There are five large conveniently located closets, and a partial basement is planned under the kitchen corner of the house.

The specifications call largely for frame construction, with the outside walls of stained wood shingles. As a protection against fire, so often caused by flying sparks or embers falling on inflammable roofs, the use of Ruberoid asbestos-cement shingles is suggested for the roof. These are obtainable in various styles and soft color blends, such as those simulating weathered cypress or natural slate. Made entirely of asbestos fiber and Portland cement, they are not only fireproof and rot-proof, but never require any painting or other preservative treatment to prolong their life.

So designed that it can be favorably placed on a 50-foot lot, this house can be built in most localities, according to the architect, for approximately \$5,000. For the family owning a suitable lot little cash would be required, and monthly payments of \$40 to \$45 would take care of the balance, both principal and interest, over a period of twenty years.

Anniversary

Bank Pays
FHA Honor

In connection with the Federal Housing Administration's celebration of its sixth anniversary, James P. Hagan, manager of Redwood City Branch, Bank of America, stated that to date Bank of America, through FHA, has loaned almost \$1,500,000 in this community to finance the building of approximately 500 homes without a single foreclosure.

Hagan further stated that since the FHA's inception six years ago, Bank of America has made more than 40 per cent of all FHA loans in California. At present it has \$180,000,000 in outstanding FHA loans covering 47,000 homes throughout the state, he disclosed.

"Bank of America was the first bank in the country to use newspapers to advertise FHA loans," Hagan said, "and it points with pride to its first FHA newspaper advertisement which was re-

Some Advice

Owners: Beware of 'Jerry Builder'

By TEDDY LAUMAN

Let us assume that you are going to build an average five room dwelling. You have plans and specifications that suit you and you have purchased a lot in a neighborhood of homes about the size, type and character of the home you propose to build. You have verified setbacks, off-sets, easements and restrictions and you want a good builder to carry on from there.

You don't know a great deal about building but you know there is quite a difference in quality of material and workmanship. Building a home is a pretty big thing in your life but so is having your appendix out, and in either case you want someone to do the job in whom you can place the utmost confidence.

If you shop for the cheapest builder you are very apt to meet up with that famous notable: "JERRY BUILDER" you have heard so much about. You wish to avoid him so you make some inquiries from reliable sources and finally get a builder who has a good local reputation for ability, reliability, efficiency in handling his finances and is well liked by his past customers. This man employs only skilled workmen while "Jerry" employs less skill for less money.

Now we will look over your specifications, passing over the general conditions since they are pretty well standard for any job.

CONCRETE: The foundations and concrete work require that excavations be to firm soil; forms be full size; a minimum of four sacks of cement to the yard; sand and gravel be clean; if soil requires it, a four-inch pad of gravel under the footings, and steel reinforcing where necessary. "Jerry" would make some money here. He would cut down

leased on Aug. 14, 1934.

"Bank of America alone does more FHA financing than the combined total of all banks in any state in the Union," he declared. "It does nearly one-tenth of the total FHA business in the United States. To date, this represents nearly one hundred million man hours of labor for the building industry and allied trades."

In commenting on this record, L. M. Giannini, president of the Bank of America, declared: "Bank of America wishes to congratulate the Federal Housing Administration on its completion of six years of successful operation. Bank of America is proud, through FHA, to have enabled business, industry and labor in California to join hands in creating and maintaining better standards of living, stimulating business and at the same time beautifying our state."

(Political Advertisement)

ON HIS RECORD of honesty and progress, Re-elect ALVIN S. HATCH, Supervisor, 4th district.

size of footings, cut down amount of cement a half sack to the yard or more (there are about twenty yards on the job,) would increase the depth of gravel pad under the footing (gravel is cheaper than cement,) he could get from an unreliable source cheaper gravel which might be dirty and he might cut down some on reinforcing. Concrete looks exactly the same and holds for a time.

TERMITE CONTROL: All form lumber must be removed when stripping the concrete, no lumber, roots or stumps must be buried or left under the house, all sills and all lumber within six inches of the ground must be creosoted and provision must be made for plenty of cross ventilation under the house. "Jerry" has been known to mix crank case oil with the creosote and to cut down on number of vents, also save labor by leaving some lumber and roots under but as a whole he can't make much here.**ROUGH LUMBER:** To be grade marked and the best of its kind for the purpose. "Jerry" knows a yard that occasionally has bargains in poorer grades which can be mixed with the better grades and hardly noticed. Then by scanty nailing, bracing only where necessary to get by spreading lumber, and substituting, all of which will be responsible for many plaster cracks, "Jerry" has made some more money.**ROOF:** Cedar shingles can be vertical grain, slash grain and several grades and still be cedar shingles. They ordinarily should be laid 4 1/2-inches to the weather but "Jerry" lays them 4 5/8 inches to the weather and misses a nail here and there which saves shingles, nails and time.**FIREPLACE:** This is to rest on a concrete footing 12 inches thick that extends 8 inches beyond brick clear around. To prevent smoking the width, height and depth of the fireplace must conform to the cubical contents of the room and the inside dimensions of the chimney must conform to the fireplace opening, the chimney must be carried above the influence of roof pitches and trees and a smoke ledge must be properly constructed above the fireplace to handle down drafts.

There must be a damper of a type that renders it unnecessary to stand on your head to operate it, a hearth that is constructed to keep embers off the floor, chimney should be lined with terra cotta, reinforced through-

out and tied to the building, and there should be an ash drop and cleanout door.

"Jerry" knows a brick layer who is trying to get started and therefore works cheap. He is a fine bricklayer but doesn't know much about the technical ramifications of a fireplace, and Jerry doesn't believe very much in flue lining and has been known to use only two pieces, one near the fireplace and one sticking out the top. No one ever looks up the chimney anyway.**PLASTER:** There are so many things which cause plaster to crack besides poor material and workmanship that only most skilled sub-contractors should be considered for this work. Exterior should be placed over a good grade of moisture-proof paper and 18 gauge galvanized chicken wire galvanized after weaving and furred out with nails made for the purpose. Outside stucco should be not less than 3/4-inch thick and inside plaster and lath combined should be 3/4-inch thick. "Jerry" will skin this down quite a bit in spots and on the entire job will have quite a bit of material.**TILE:** Is set on a base of cement which has been backed with moisture-proof paper and reinforced with chicken wire and the cracks grouted with Madusa or equal. If the tile is not thoroughly soaked before setting, the cement of improper mixture, the grouting delayed too long or it is the wrong kind of tile for the purpose, this will be reflected in the upkeep. There are many different qualities of tile.**FLOORS:** You don't want squeaks in your hardwood floor so your contractor will be very careful about his sub floor, first as to material and second as to nailing as it must be carefully and securely nailed on each bearing. If there are many cracks and knot holes, or wide cracks or long cracks, the hardwood floor nails will find their way into them and squeaks will be the result. The hardwood floor man must be conscientious enough to make sure of his bearings, take off the high spots, use moisture-proof paper under the hardwood and throw out faulty pieces as he comes to them. Jerry can save quite a bit on the sub-floor.

There is an approximate total of 24 sub-contracts that enter into the construction of your home but time and space will not permit me to enumerate further. "Jerry" is sure to shop for

Furnishings for Modern Homes

Suggested by the Tribune Home Planning Bureau

Rusted Furniture Can Be Repainted

Rusty metal garden furniture is readily painted, provided all loose rust is removed by vigorous wire-brushing. This treatment assures a solid clean surface for the firm adhesion of paint.

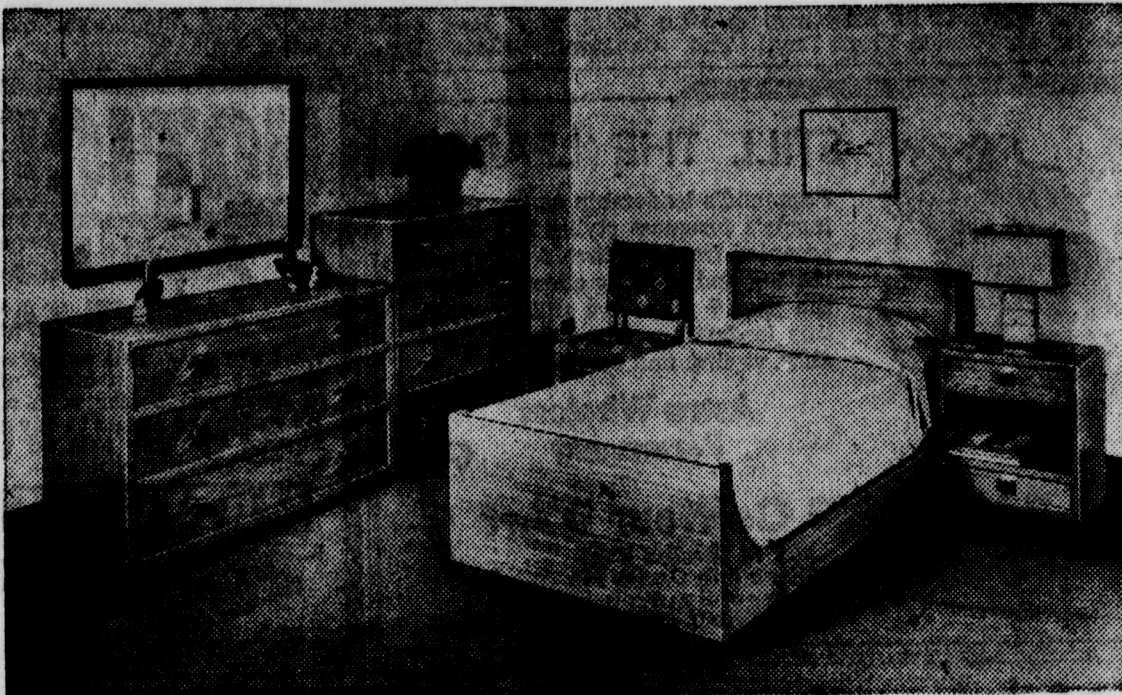

Apply a priming coat of pure red lead paint, which acts as more than a protective coating, being an inhibitor of rust as well, preventing the possibility of further corrosion.

For a flat finish apply over the red lead primer body and finish coats of paint composed of equal parts by volume of soft paste white lead and lead mixing or lead reducing oil. After thoroughly mixing these ingredients, tint as desired with colors-in-oil.

For a gloss finish substitute high quality enamel for flat finish coat. Enamel will not remain sticky on benches and chairs under body heat like a gloss finish oil paint.

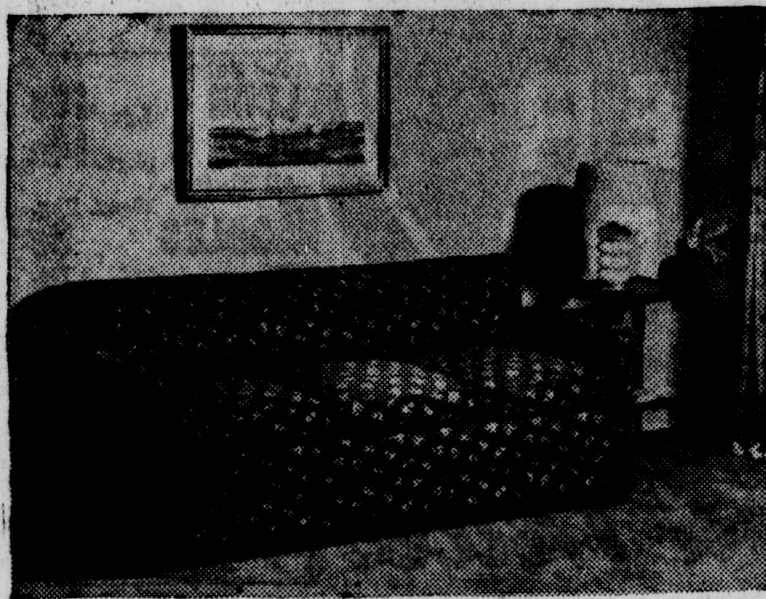

Australia is the only completely isolated continent.

A Tonic for Any Home

Contemporary Modern is a tonic for any home. The suite shown is made of genuine Honduras mahogany available in either Rosewood or champagne bleached colors. The polished brass hardware was specially designed for this group. An up-to-date style.

Attractive and Useful

This attractive sofa, which can be opened into a comfortable double bed with innerspring mattress, is an attractive and useful feature in any house.

National flags have not been featured on U. S. stamps since 1869. An army "shavetail" is a recently appointed second lieutenant.

Lighting and Wiring Important Subjects

Wiring and lighting are two of the most important considerations in home building. And it's cheaper to do it right in the beginning.

During the past 25 years the use of electricity has increased ten fold. There's every reason to suppose this rate will continue, if not increase.

Scientists learned many years ago that electricity travels along a conducting wire much the same as water moves through a pipe. The larger the pipe, the greater the water-carrying capacity; the thinner the wire, the less current.

If your electrical wiring is too small, or the circuit is too long, the electrical force is going to be only a part of what it should be at any outlet, and you pay for it—you will pay for the privilege of receiving inferior electrical performance.

Your toaster will take longer to heat, lamps will give less illumination, etc.; but you will pay for full power at your meter whether you use it or not.

Mission Trails Day Set at State Fair

Due to an error on the part of the management of the California State Fair in the selection of days, Mission Trails Day at the fair has been changed from Monday, Sept. 9 to Sunday, Sept. 8, Fred E. Beer, president of the California Mission Trails Association, announced here.

In spite of the change of days, Beer expressed satisfaction with state fair officials in selecting a Sunday for Mission Trails Day.

"Many of our people in the Mission Trails counties — San Francisco, San Mateo, Santa Clara, San Benito, Santa Cruz, Monterey, San Luis Obispo, Santa Barbara and Ventura — will have to travel long distances to reach the fair in Sacramento. The Monday following, Admission Day being a holiday, fairgoers will have a chance to rest up after their trip," Beer said.

The California State Fair

NEON SIGN TAKEN DOWN

The neon Emerald Lake sign, landmark over El Camino Real at Jefferson Ave. for about 15 years, will be seen no more. It was taken down Monday in preparation for widening of the highway, according to City Manager C. L. Dimmitt. The sign was put up by a real estate firm and was taken over by the city a few years ago.

opens Friday, Aug. 30 and closes Monday, Sept. 9.

Furniture Store Moves Into Larger Quarters

Removal of his Brown's Furniture Service from 851 Main St. to larger quarters at 838 Main St., where Furnivall's Music and

Furniture Store formerly was located, was announced today by F. M. Brown. The move was occasioned by the rapid growth of the firm's business which has increased it from a one-man to a five-employee organization. Brown de-

clares that he believes his business will continue to grow with Redwood City. He plans to add a stock of linoleum and new and used furniture.

New York's mayor, F. H. LaGuardia, has had 13 official residences since he took office.

PUBLIC NOTICE

George P. Larrouy, Atty. NOTICE OF TIME AND PLACE OF HEARING PETITION TO ESTABLISH FACT OF BIRTH. No. 31742—Dept. 2

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

In the Matter of the Petition to Establish the Fact of Birth of MICHAEL RUIZ. The verified petition of ROSA QUINTANA, praying for an order of the above-entitled Court, establishing the fact of birth of MICHAEL RUIZ, a minor, having been filed in the above-entitled Court.

NOTICE IS HEREBY GIVEN that Monday, the 16th day of September, 1940, at the hour of ten o'clock a.m. of said day, at the Court Room of said Court, Department No. 2 thereof, at the Court House located in the City of Redwood City, County of San Mateo, State of California, is hereby fixed by the above-entitled Court as the time and place for establishing the fact of birth of Michael Ruiz, and for hearing said petition, when and where any person interested may appear and contest the same.

GIVEN under my hand and the seal of said Superior Court this 14th day of August, 1940.

W. H. AUGUSTUS, Clerk. By ALMA PAGANINI, Deputy Clerk. GEORGE P. LARROUY, Stafford Building, Redwood City, Calif., Attorney for Petitioner. (Endorsed) Filed Aug. 12, 1940. W. H. AUGUSTUS, Clerk. By MURA B. STILLESSEN, Deputy Clerk. Published in the Peninsula Beacon Aug. 16, 23, 30, 1940.

Freedom of the Press Discussed by Publisher

The value of a free press to a free people was described by Logan Franklin, publisher of the

South San Francisco Enterprise and president of the San Mateo County Press Association, when he addressed the Redwood City Lions Club Wednesday.

Speaking on the theme, "The Companion of Achievement," Franklin related the history and background of the freedom of

the press tradition, and pointed out the ever-growing threat of censorship. The meeting was held at Sodin's.

Present strength of the National Guard is about 242,000.

REASONABLE PRICES FOR DENTAL PLATES

MADE OF BEAUTIFUL TRANSPARENT MATERIALS

The beauty and natural appearance of the transparent dental plate materials are acclaimed by many dentists, who find in them a harmony of color tones that are gratifying to the eye—so lifelike, so dainty, and so well adapted to their use in the making of dental plates that, when coupled with the careful selection and setting of the new scientifically designed teeth, they are factors that tend to the retention of a charming and attractive smile. Their beautiful, natural, tissue-like tint is a revelation of artistry in delicate coloring.

"WHERE VALUES MAKE FRIENDS"

Officers' Retirement Plea Denied

Petition of a constable and sheriff's deputy for retirement pensions under a state law fell short of its mark here, when Judge Maxwell McNutt ruled in favor of a demurrer by the district attorney on the grounds that the petitioners had cited the wrong law.

Constable Fred A. Simmons of the Fourth Township and Deputy Sheriff Ferguson Owen, former constable of the Second Township, are the defeated petitioners. Yesterday they appeared in court to support their request for a writ of mandamus forcing the board of supervisors to set up a pension board under Act 6012 of the California Legislature.

Judge McNutt ruled in favor of Asst. Dist. Atty. Daniel E. Sullivan's contention that Act 5849 rather than Act 6012 is the suitable law in the matter. The former makes it optional with the supervisors to set up a pension fund, while the law cited by the peace officers makes it mandatory.

Judge McNutt's ruling read, in part:

"The petitioners do not state a case because the said section (6012) does not cover the relief contemplated by the petition."

"It is the court's opinion that Act 5849 constitutes a legislative declaration that Act 6012 is inadequate to cover the instant situation. The petitioners will be relegated to relief under that provision of the law which was enacted, in my judgment, to cover their situation."

Spiritualist's Estate Bequeathed to Kin

Value of the estate of Carl Eberhard, 78-year-old San Carlos spiritualist who was found dead of a heart attack in his home Aug. 15, was set at "not more than \$12,000" here by a petition for probate of his will and letters of administration filed in superior court by a nephew, Adolph J. Eberhard of San Francisco.

The holographic will, dated July 16, 1934, names the nephew executor without bond and bequeaths the entire estate to him "to distribute to the rest of the relatives as he sees fit."

There are six other relatives, living in San Francisco, New York and Connecticut. The estate consists of a small bank account and property in San Carlos and elsewhere in California, the petition states.

FIRE HAZARD GREAT

Maximum forest fire danger will prevail for the Labor Day weekend in most mountain sections of the state, the U. S. Forest Service and Weather Bureau forecast today. Fire control officials issued the statement that motorists and vacationists need not be alarmed about their personal safety but they should be especially careful in safeguarding timber, recreation and wildlife resources.

George Concannon To Attend Harvard Business School

MENLO PARK — Bound for New York, where he will visit with relatives, George Concannon, son of Mr. and Mrs. Robert L. Concannon of Menlo Park, is on the high seas today aboard the Manhattan. He will travel through the Panama Canal to New York, and from there will go to Washington, D. C., before continuing to Cambridge, Mass., where he will register at the Harvard School of Business on Sept.

19 to begin a two-year course. He was graduated in June from Stanford, where he majored in economics and belonged to Sigma Chi fraternity.

George Concannon divided the summer between a camp in the high Sierras above Mount Whitney, where he spent several weeks, and the summer home of his parents at Fallen Leaf, where he spent two months with Mrs. Concannon. Mr. Concannon

joined them during his two weeks' vacation and over weekends.

Several Stanford friends and Peninsula relatives went to San Francisco to see George off when the Manhattan sailed on Tuesday. The ship will call at Acapulco, Mex., at Panama City, Cristobal and Havana en route to New York.

Also aboard the Manhattan are Mrs. Richard H. Atkinson of Los

Altos and her two children, who are going to Philadelphia to visit with Mrs. Atkinson's family; A. A. Alchian of Fresno, who has completed his course at Stanford and is bound for New York, where he will study at Columbia University, and Pauline Crause of Wenatchee, Wash., another Stanford student, whose destination is New York.

Drownings in New York City have decreased 40 per cent a year in the last ten years.
